AUSTRIAN SPY SYSTEM IN AMERICA IS CHARGED

FORMER CONSUL AT SAN FRANCISCO SAYS HE WAS INSTRUCTED TO OBTAIN PLANS OF PACIFIC FORTIFICATIONS

Austrian Says He Resigned After Refusing to Become Spy and Fled to Rome—Says System Has Been Well Organized

By Associated Press.

Washington, Nov. 12.—Public charges attributed to Dr. Joseph Gorica, former Austro-Hugarrian consul at San Francisco, that Austrian consuls in the United States working under the direction of consul-general Von Nuber and Count Von Bernstorff, the German ambassador, are active in a propaganda for the destruction of munitions factories and fomenting strikes among the workers, will be referred by the state department to the department of justice for investigation.

In substance Gorica is credited with making the statement that he resigned his post after fifteen years in the Austrian consular service because he declined to perform the work of a spy. He charges that while consul at San Francisco, Commander Maximilian Burstin, the Austrian naval attache at Washington, ordered him to gather plans of the fortifications of San Francisco harbor and along the Pacific coast and to get especially details of the work at the Bremerton navy yard. When he refused, Gorica is credited with saying, he was transferred to Berlin, where after five months he was ordered to proceed to Vienna, which he feared to do because of his pro-Slavic affiliations. So he fled to Rome, where he resigned last December.

Gorcia's story contends that the German ambassador working with Von Nuber, is in touch with the Austrian consuls at Cleveland, St. Louis, Pittsburgh, St. Paul, Chicago and Philadelphia, who spread propaganda among the foreign workers in the munitions factories, and such activity, Gorica, alleges, extends even to controlling the foreigners through fraternal and secret organizations. The alleged extent of the activities of the Austrian consuls and the so-called sy system is described at length in Gorica's published statement.

The Austrian embassy here denounced Gorica's published statement as untrue in every particular and announced it would try to find some way to prosecute him for it. Gorica, the embassy said, left his post on leave and failed to return.

Secretary Lansing declined to comment. The department of justice has nothing definite on the charges attributed to Dr. Gorica.

Gorica's record shows he first came to this country in 1909 and was consul at Pittsburgh, Denver and finally at San Francisco, where he served three years.

ILLNESS CAUSES SUICIDE OF WEALTHY CHICAGO YOUTH

Warren M. Peabody, Heir to Million and Research Worker, Ends His Life.

By Associated Press.

Chicago, Nov. 12.—Warren M. Peabody, 21 years old and a millionaire by inheritance, whose body was found last night in his home beside a vial which had contained poison, committed suicide while temporarily insane, according to the verdict of a coroner's jury today. From the time the young man wore knickerbocker athe idea of suicide seemed attractive to him, was the testimony of his mother, the widow of Hiram Peabody, a millionaire real estate operator. Among questions asked Mrs. Peabody was, "Was your son in love with or engaged to anyone?" "Yes," replied Mrs. Peabody, "and to the best of my knowledge they were on good terms."

Several notes written by the young man, who about two months ago came into possession of half his father's estate of $2,000,000, were read at the inquest, indicated that he was despondent over the condition of his health.

A letter purporting to be the young man's last word to his fiance, was given the deputy coroner by the police. It read:

"I have gone. You must not look for me, for it will be useless. I love you. You must be brave. It won't be long. I will keep you warm and happy in the land of the great forest and the rolling prairies. I will always think of you and you will know. (Signed) Warren. Please destroy."

DECLARES EUROPE IS READY FOR PEACE

DR. DAVID STARR JORDAN ASKS PRESIDENT TO JOIN IN MOVEMENT

QUASI - OFFICIAL CONFERENCE

Warring Nations Would Not Oppose Action, It Is Said. Early Meeting Planned

By Associated Press.

Washington, Nov. 12.—David Starr Jordan, chancellor of Leland Stanford University and head of the International Peace Congress recently held in San Francisco told President Wilson that a quasi-official meeting of neutral nations probably will be held some time before Christmas, at either The Hague, Berne or Copenhagen, to attempt to bring about peace in Europe.

Dr. Jordan conveyed to the president a resolution from the peace congress urging him to co-operate with other neutrals in calling such a congress. In a statement laid before the president by Dr. Jordan, it was declared that as a result of recent missions to the governments of the warring nations, it could be stated that while the nations at war were not willing themselves to begin negotiations for peace "there is abundant evidence that those charged with the administration of the foreign policies of these nations would welcome, or at least would not oppose, affirmative action by a neutral agency to bring about peace based on international justice."

FIRST MEETING OF CABINET IN SEVERAL MONTHS TODAY

Ancona Incident May Be Discussed—Session Preliminary to Opening of Congress.

By Associated Press.

Washington, Nov. 12.—President Wilson and the cabinet met today for the first time since last July when the German submarine question was at one of its most serious stages. The sinking of the Italian liner Ancona is the most important question pending.

It was stated at the White House that the cabinet meeting today was called because the president wants to get in touch with his advisers before the opening of Congress.

The principal subject taken up at today's cabinet meeting was how to raise the money for carrying out the defense plans. No definite conclusion was reached, but the prevailing idea was to avoid a bond issue. The subject will be considered further at a conference between the president and democratic leaders of the Senate and House.

Secretary Houston said the agricultural interetss of the county were in a very good condition. Other optimistic reports of business conditions were laid before the cabinet.

LIFE BOATS HIT BY SUBMARINE'S SHOTS

CAPTAIN OF ITALIAN LINER ANCONA SUBMITS REPORT TO OWNERS

DENIES WARNING WAS GIVEN

Those on Board Afforded no Chance to Escape Although Liner Stopped, He Says

By Associated Press.

Naples, Nov. 11, via Paris, Nov. 12.—The owners of the Italian liner Ancona, sunk in the Mediterreanean by a submarine have received the report of the Ancona's captain in which he makes positive charges that the submarine neither gave warning to the liner nor afforded those on board a chance to escape.

The first shot, the captain's report declares, was fired when the submarine was three miles distant. The captain immediately stopped the ship, he says, but this did not appear to satisfy the commander of the submarine which continued to shell the liner.

The captain without delay ordered everybody to the boats, upon which he declared the submarine turned loose all guns killing and wounding many persons in the boats and on the steamer.

CHAMBER OF DEPUTIES IN GREECE IS DISSOLVED; FOLLOWS CABINET CRISIS

NEW RECRUITING PLAN IS VERY NEAR CONSCRIPTION

Government Gives Rather Strong Hint to Unmarried Men Under Age of Thirty.

London, Nov. 12.—A strong intimation of compulsion at an early date is contained in a statement by the Earl of Derby, director of recruiting. This statement is made, Lord Derby declares, with the authority of the prime minister. It says:

"If you men medically fit and not indispensable in any business of national importance or any business conducted for the generall good of the community do not come forward voluntarily before Nov. 30 the government will, after that date, take the necessary steps to redeem the pledge made on Nov. 2."

On the date referred to Premier Asquith announced in the House of Commons that if young men did not come forward voluntarily and enlist, "other and compulsory means" would be taken before married men were called upon to fill thei rengagement to serve.

Lord Derby adds: "Whether a man is indispensable or not to his business will be decided, not by the man or his employer, but by competent authorities and tribunals which are being set up to consider such cases."

WOULD BUILD PERMANENT FORTS ALONG RIO GRANDE

This Plan Is Submitted By Congressman Garner as Part of the Defense Program.

Washington, D. C., Nov. 12.—Plans for the permanent establishment of military posts along the Texas-Mexican border were submitted to General Scott and officials of the war department today by Representative Garner.

He urged the location of regular troops at Brownsville, Laredo and Port Aransas after order is restored in Mexico, and so interested in his presentation of the case was General Scott that he asked for a statement in writing covering the case in order that it might be taken up at the next meeting of the board of strategy. In this connection Garner outlined the needs of better communication along the border, either in the form of a railway or a military highway.

Along the line of defense for the coast of Texas be conferred this afternoon with Chairman Sherley of the house committee on fortifications, urging an appropriation in the next fortifications bill of a sum of money for the erection of a fort at Port Aransas harbor. At the time congress appropriated funds for the deepening of the harbor to a depth of 25 feet the board of engineers required the State of Texas to cede to the federal government a tract of 160 acres on St. Joe island for fortification purposes. This land was formally conveyed to the government, but no steps have ever been taken to construct fortifications.

Chairman Sherley asked for all the data upon the subject and announced himself as favorable to the project, as it the announced policy of the government to construct protective works at all harbors of 25 feet waterways or more. The matter will be brought before the fortifications committee this winter and a determined effort made to secure the needed appropriation for the Port Aransas fort.

WOMAN WHO WED FOREIGNER WANTS CITIZENSHIP RIGHTS

Is Suing to Set Aside Expatriation Ace in 1907—Not Allowed to Vote in California.

By Associated Press.

Washington, Nov. 12.—Citizenship rights of American women who marry foreigners but who continue to live in the United States were placed today before the supreme court for decision. Mrs. Ethel C. Mackenzie of California, wife of Gordon Mackenzie, a British subject, who has resided in California since his marriage, however, was attacking through attorneys the attempt to make applicable to her the expatriation act passed by Congress in 1907. Registration officials in California refused to permit Mrs. Mackenzie to register on the ground that she had become a British subject by reason of her marriage.

In her brief it is said that the decision is of vast importance to alien women because of the European war particularly if travelling on the ocean.

COMMENT ON GREECE POLICY

Believed Military and Not Political Considerations Will Govern—New Recruiting Law In England Is Nearly Compulsion.

By Associated Press.

London, November 12.—All doubt as to what road Greece would choose out of the muddle caused by the divergent views of her political leaders, and as to how the policies of the Skouloudis cabinet could be rendered compatible with the opinions of the adverse majority in the chamber, today were dispelled by a public dissolution of the Chamber of Deputies.

Publication of the decree apparently was received in Athens with calm despite the fact that all elements hoped to avoid elections at the present difficult moment. The Greek government, it appears, considered dissolution the only possible means of securing for itself full and undisputed liberty of action.

Greek officials in London and other points continue to assert that the future actions of Greece depend solely upon military and not political considerations. As soon as Greece is convinced beyond a doubt that the allies have produced enough troops to make possible a successful offensive against Bulgaria and to remove the danger with which Greece would be confronted if she entered the war inadequately assisted, Greece will say her representatives in Europe, immediately range herself on the side of the allies and render all the military coopeation of which she is capable.

Today's news from the Balkans makes it appear that there is a distinct posibility that the Anglo-French and Serbian forces may succeed in gaining a part of the Nish railway as far as Uskup.

All accounts received here of the recent fighting in the neighborhood of Veles state that the Bulgarians are in full retreat after enormous losses, and that the freshly arriving allied troops are expected to push the advantage already attained to a successful conclusion. In this case, the Bulgarians probtbly would have to abandon the Uskup-Kutanova line and the whole southern portion of the railroad would revert to the entente allies.

The Manchester Guardian interprets the new recruiting movement over which there is much discussion, to mean actual compulsion for unmarried men.

"To talk voluntary enlistment to a man who is told that if he does not enlist voluntarily he will be enlisted, all the same," the newspapers says, "is to insult his intelligence as well as to command his person. The system which the press bureau statement appears to contemplate is not a voluntary system at all, so far as unmarried men are concerned."

DENY FERGUSON IS BELL COUNTY ISSUE

HIS PARTICIPATION IN PROHIBITION CONTEST IS CRITICISED

CHURCH FEDERATION EXPLAINS

Declares Election Was Called Because Sentiment Became Strong for It

Special to The Times.

Temple, Texas, Nov. 12.—In reply to the charge that the Bell county local option election is a movement to discredit Governor Ferguson, the executive committee of the Christian Laymen's Federation of Temple has issued the following statement over the signatures of its members.

"Last spring in the month of May, the Laymen's Federation, an organization composed of the Christian laymen of Temple, came to the Pastor's Conference of Temple with the proposition that all the churches unite and invite some evangelist to Temple to conduct a union revival. The plan was adopted by the pastors of the city and they decided to invite the Ham-Ramsey evangelistic party to conduct the proposed union revival. The invitation was sent to Mr. Ham and he agreed to come in September. During the summer the big temple was builded, and on August 31 Mr. Ham arrived and began the meeting.

Work of Evangelist.

"On every Sunday afternoon during the meeting Mr. Ham spoke to a mass meeting of men. At these meetings many men from all over the county were present. One Sunday Mr. Ham spoke on 'Booze.' Scores of men were converted to God and announced they would never again vote for the saloon. The sentiment favoring an election grew rapidly, but for two weeks Mr. Ham objected to his meeting being diverted into a saloon fight. However, after he had received numerous threatening anonymous letters and after the saloon element began to curse Mr. Ham and the revival on the streets, Mr. Ham agreed for a petition to be circulated at his men's meeting, Sunday, October 5th. The petition was made ready and presented to the men's meeting by Dr. A. E. Tull, pastor of the First Baptist Church of Temple. At this single meeting 725 citizens from all over the county signed the petition asking for an election. Nearly one thousand other names were afterwards added to the petition from every point in Bell county. The petition was presented to the county commissioners and the election was called for November 13th. That is the way the fight started.

"All this was done without the consultation, approval, consent or the knowledge of any man outside Bell county.

Governor's Name Used.

"Immediately after the election was called, and the saloons saw they were in a fight for their lives, the saloon leaders began to circulate the lie that the election was gotten up as a fight against Governor Ferguson.

"When the prohibition committee was organized this committee outlined the issue and announced that we were out to contest the one issue—'Saloons or no saloons for Bell county.' Dr. A. J. Barton, superintendent of the Anti Saloon League, heard that an election had been called in Bell county and came to Temple to offer the services of the league, if it was needed or wanted. It was agreed that the help of the Anti Saloon league was not needed in the Bell county campaign. The fight was thus pitched on the one issue—'Saloons or no saloons.'

"In trying desperation for help from the governor the saloon leaders picked out of the mouth of a newspaper reporter of Waco this sentence, which they put into the mouth of Dr. Barton: 'The prohibitionists are putting forth a strong effort to carry Bell county, particularly because it is Governor Ferguson's home county.' The saloon leaders grabbed this lie like a drowning man would grab a straw, and raised the howl that the whole fight was gotten up by the Anti Saloon league in order to discredit the governor in his home county.

Declare Governor Fooled.

"With this lie as a pretext, the saloon leaders have gone to Governor Ferguson and demanded that he come home from his official duties at Austin and fight their battle for them. Governor Ferguson has believed the lie fabricated by the saloon leaders themselves, and we have the pitiable picture of the governor of a great State leaving his official duties as chief executive and coming to a local county to rag the sovereign citizens of old Bell on a brazen lie hatched out at liquor headquarters.

"Governor Ferguson has been deceived by the liquor gang themselves. The prohibitionists have offered Governor Ferguson $500 to find one man in Bell county who has been asked by any member of our prohibition campaign committee in person or otherwise to vote to discredit Governor Ferguson. The sad and ridiculous part about the governor is that he allowed his official dignity, as governor of a whole state, to be dragged into the slime of a lie told by the crowd he is coming home to defend.

Question of Repudiation.

"The issue in this contest is not Governor Ferguson's politics, but shall Bell county longer suffer and stand for the corrupting, blighting, villanous control of the saloons of Bell county. The citizens of Bell county did not sell their boys and girls to the saloon when they voted for Governor Ferguson.

"The whole world is up in arms against the saloon. Our fight is for our homes, our churches and our schools. We did not bring Governor Ferguson's name into the fight. 'Saloons or no saloons' is the only issue to be settled at the polls next Saturday. On this issue the free voters of Bell county will refuse to be dictated to by any man when the happiness of their homes and the sacredness of their religion has been outraged.

"The saloons themselves would repudiate Governor Ferguson in his home county if he was not an anti prohibitionist. They have no respect for him or anybody else who is against their business. Nobody on earth knows this better than Governor Ferguson himself."

CITIZENS URGED TO CLEAN UP TOMORROW

CIVIC LEAGUE HOPES FOR GENERAL OBSERVANCE OF OCCASION

WILL PROVIDE TRASH WAGONS

Burning of Leaves and Trash, Removal of Tin Cans and Clearing of Vacant Lots Asked

Tomorro Saturday November 13 will be observed as a fall clean up day and the ladies of the Civic League urge that all hous holders aid in this plan for a clean up by ridding their own premises of trash, burning all leaves and weeds and other trash that can be burned and having tin cans and such refuse hauled away

Wagons will be secured by the district committee, a wagon to each district and the owners of these wagons have agreed to haul away trash fo ten cents a barrel The wagons will go through the alleys on Saturday making a complete tour of the town and those desiring to have trash hauled away should have it collected in boxes or barrels at the rear of the place The committee also requests all owners of vacant lots have them cleaned off and put in a presentable condition for the winter months

This clean up day is entirely apart from the general clean up day which has become an annual institution and is designed to put the entire city in a sanitary condition for the coming winter.

STOMACH TROUBLES

Mr. Ragland Writes Interesting Letter on This Subject.

Madison Heights, Va.—Mr. Chas. A. Ragland, of this place writes: "I have been taking Thedford's Black-Draught for indigestion, and other stomach troubles, also colds, and find it to be the very best medicine I have ever used.

After taking Black-Draught for a few days, I always feel like a new man."

Nervousness, nausea, heartburn, pain in pit of stomach, and a feeling of fullness after eating, are sure symptoms of stomach trouble, and should be given the proper treatment, as your strength and health depend very largely upon your food and its digestion.

To get quick and permanent relief from these ailments, you should take a medicine of known curative merit.

Its 75 years of splendid success, in the treatment of just such troubles, proves the real merit of Thedford's Black-Draught. Safe, pleasant, gentle in action

The Good Southern Flavor

You can have waffles with the same wonderful flavor that makes Southern waffles so good.

Use Aunt Jemima's Pancake Flour—the pancake flour that has the milk *already mixed in it.* Only in Aunt Jemima's can you get the added flavor, and deliciousness, milk gives.

Serve Aunt Jemima's waffles to-morrow. See how exactly they give you the flavor that has made Southern waffles so famous.

Wichita Falls, Texas, Nov 12 1915

OPEN MATTER

Fourteen members of the National Democratic Executive Committee it is said will vote for Dallas as the next place to hold the National convention

The present Democratic majority in the lower house of congress is thirty three or there are that many more Democratic members than there are Republicans The Progressives and Socialists number twenty five leaving the Democrats a clear majority of eight over all

The cool nights are making the sport of duck hunting fine on Lake Wichita The limit allowed to be bagged by one man is fifteen and it is not much trouble to get that number in a days hunt in fact some duck hunters reach the limit by the time they are out on the lake for an hour or so

A Washington press dispatch says there are more than one thousand first second and third class postmasterships that have not been filled since President Wilson was inaugurated It is the policy of the Wilson administration to permit all Republicans now in office to serve out their commissions and not remove them merely to substitute for them Democrats Doubtless that is the correct or business way of viewing the matter but should the Democrats fail to elect their ticket in 1916 how many Democrats are there who really believe that the Democrats appointed by the Wilson administration will be permitted to serve out their commissions in the event of Republicans are victorious? That party owes its long reign of power principally to the fact that it was thoroughly organized from the bottom up and where it was possible to find a Republican to fill an office there was no need of a Democrat applying it mattered not how much more efficient the Democrat might be than the Republican Politically speaking it is the proper course to be pursued It is playing the game of politics as it should be played

There are 1 500 000 children in Texas within the scholastic age and considerable more than half of them attend rural schools when they attend school at all Many do not attend the rural schools for the reason that the school buildings and other essentials that ought to be provided when a rural school is established are such as make the rural school unattractive to the pupils Texas should be more generous in providing for rural schools and if the agricultural interests of the State are to be developed public schools that are equal to the public schools in cities and towns must be established and maintained at public expense When this is done it will then not be necessary for a farmer who is raising a family of boys and girls to abandon his farm and move to a town or city in order to secure for them school facilities

Talking of foolish things what can beat the custom Texas voters have made of electing an officer for the second term just because he was elected the first time? The voters rarely ever stop to consider whether an officer has made good or whether he is a flat failure The thing is that he must have a second term—Bonham News

Well it is just about on a parity with electing him in the first instance knowing that he is not qualified by education or training to discharge the duties of the office Voters resent the charge that they are not competent to choose a public official but the fact remains that only about one in ten look to qualifications when they cast their votes for a public servant And then as the News suggests, the idea of retaining an incompetent servant for a second term because it is customary to do so, accounts in part for the malodorous character of public service we have to endure—Denison Herald

MORE ABOUT THE LIGHT PLANT

Mr Editor Kindly allow me a little more space in The Times touching the light plant sale again I find some of the patrons of the Citizens light plant think Mr Lawton's proposition is not definit enough in his statements as to keeping the rates unchanged on lights Since it can be interpreted that the rates will not be raised above fifteen cents per kilowat just as the old plant now maintains These patrons of the Citizens are now paying ten cents per kilowat to the new company and if this rate is to be raised to the same as that of the old plant they will be unnecessarily injured thereby On first sight these patrons manifest a little selfishness which is hard to avoid but their concern becomes very pardonable when we examine the annual corporation reports for 1914 in which the Citizens Light and Plant company shows a net earning of about 20 per cent on its capital stock of $21 000 Although not a competent judge of such enterprises yet I rather think that its physical value is not so large as is represented but a good per cent is value placed up on its franchise I see no good reason for the city to overlook this splendid opportunity and let the Citizens be absorbed by the old plant

MINOR MATTERS RECEIVE CITY COUNCIL'S ATTENTION

Austin Street Grade is Ordered Charged—Back Taxes are Refunded

The city council last night authorized a slight change in the grade of Austin street between Tenth and Eleventh streets so as to more nearly conform to the surface of the adjoining lots

O T Bacon in behalf of himself and R E Montgomery asked the cancellation of back taxes on some land lying along the river He said they had granted the city permission to lay its sewers through this land and that most of the land had been taken away by the encroachments of the river The council ordered that the back taxes on this property be cancelled provided the owners gave a written right of way for the sewer lines through it

A large blue print map of the city and environs was ordered purchased for the city tax assessor's office from Mr Carter Several other matters of minor importance were discussed

Psychical Effect Of War On Soldiers Is Weirdly Described

By Associated Press

Berlin Nov 12—Professor Ludwig Schleich one of Germany's prominent medical men has just published a report of his observations after several months work at the front and in military hospitals in various parts of Germany He dwells particularly on the psychological effect of the strain of modern battle on the private soldier

'There is frequently he observes a strange almost awful [illegible] in the faces of those who have been [illegible] battle They are still willing soldiers some of them eager to get back to the trenches, but the more high civilized a man is, the deeper his feelings the more does he bear the indelible something in his face the sign that he has seen terrible things'

Physically these soldiers may be hard as iron, says Prof Schleich but psychically they are not intact The officers nearly always develope an uncanny, marble, staring look, as though they had grown accustomed to look unshudderingly at the terrors and desolating orgies of destruction and finally felt that their eyes had becomfe a mirror of the horrible It is as though the claws of a demon had seized their faces and made their eyes sink deeper into their hollows They are all changed, they have seen the head of the Gorgon in the Region of Night'

DALLASITE PLEASED WITH RESULTS--HIS TESTIMONIAL

Dallas Tex, Nov 10, 1915—'Tanlac has made me well was the statement of Mr W H Hudgins, who resides at 4322 Cole Ave Dallas, while talking with the Tanlac man at Skillern & Sons' store several days ago

'I had a very badly deranged stomach and suffered from it for five years but I can now say that I am on the road to recovery and that Tanlac is the cause of it. I would suffer sometimes with a cramping in my stomach for as much as twelve or fourteen hours at a time and it seemed as if I could not in any way eliminate this trouble I saw so many of your Tanlac testimonials in the paper and heard so much about the new medicine from my friends and relatives that I made up my mind that I would give it a trial

I have used just one bottle of Tanlac and it has stopped the cramping in my stomach and I feel that it has put my system in good shape, as the pains have ceased and I feel as well as I ever did I am truly happy, for when a man's stomach is in good shape he is pretty sure to feel all right"

Tanlac will continue to be explained at The Palace Drug Store

COTTON UNSETTLED; WHEAT GOES LOWER

PRIVATE CROP ESTIMATE HAS BEARISH EFFECT ON COTTON TODAY

WEATHER INFLUENCES GRAIN

Liberal Receipts Also Have Effect, Though Cables Bring Some Show of Strength

By Associated Press

New York, Nov 12—Bullish cable and weather advices were followed by an opening advance of six to twelve points in the cotton market today but this was by no means a full response to the Liverpool showing and after selling at 11 91 January contracts eased off to 11 83 during the early trading or back to within three points of last night's closing figures A private crop estimate placing the yield at 12 000 000 bales minimum excluding linters probably checked buying and the market was unsettled during early trading Private cables attributed the advance in Liverpool to continental buying and small southern offerings Heavy frosts were reported in Oklahoma

Chicago Nov 12—Liberal receipts and fine weather tended today to make the wheat market sag Firmness of quotations at Liverpool however, brought about a temporary show of strength at the start The fact that domestic sales continue to be small operated somewhat as a check on the bears [illegible] ng prices which ranged from 1 8 off to 1 8 with December at 103⅝ to [illegible] and May at 104⅞ to 10[illegible] followed by slight gains and then [illegible] turn to well below last night's levels all around Corn as well as wheat felt the bearish influence of good weather Selling was [illegible] character and included profit taking by longs After opening 1 8 to [illegible] lower the market rallied a little and then declined lower than before gave way with other grain Pressure from bears, however, was lack of an aggressive sort Pack buying lifted provisions The market was helped upward also by strength in prices of hogs

By Florence L. Barclay, 50c

Once in a generation there appears a story like "The Rosary" in which there is but one adventure—the great passion of two real persons superbly capable of love, the sacrifice they make for it, the sorrows it brings them, and the exceeding reward. With rare skill the gifted author of this wonderful story depicts the tragedy of a beautiful soul masked by plain features, and the love of a young artist who is reputed to love beauty more than all else in the world. In the way of subtile interpretation of the deeper sentiments and motives of the human heart, the book has few peers among contemporary fiction.

At The Theaters

"DAMAGED GOODS" AT THE OPERA HOUSE NOV. 18.

The history of the first production of Eugene Brieux's great sociological drama, "Damaged Goods," has no counterpart in the annals of American stage. After its initial production in Paris ten years ago, the French masterpiece had lain practically neglected until a Pennsylvania Legislator, Senator Flynn of Pittsburgh, found a copy of it in a book store and upon reading it, was impelled to introduce a bill in the legislature providing for a health certificate with a marriage license in his state. While the bill was pending, Senator Flynn met Richard Bennett, the actor, and urged him to read "Damaged Goods." This was two years ago and since that time Mr. Bennett has devoted most of his waking hours and all of his dreams to the production of this drama.

Its presentation required courage and indefatigable energy. Mr. Bennett rehearsed four companies and in each instance the members of the cast reneged at the last moment fearing that their association with a drama which deals with the social disease might stigmatize them in the eyes of the public. Finally, however, the actor assembled a valiant group of co-workers, who gave the first performance at the Fulton Theater, New York, March 14, 1913. They gave their services, as Mr. Bennett gave his, and William Harris, owner of the Fulton Theater, donated the use of his playhouse. The reception accorded the play was the sensation of the theatrical year in New York. The foremost clergymen, social workers and educators proclaimed it as the stage's greatest gift to humanity.

But before presenting the play to the general public, Mr. Bennett wished to procure the viewpoint of a more national audience than could be had in New York City, so he arranged for a special guest performance of "Damaged Goods" to be given in Washington. The spectators for this one performance, it will be remembered, were members of the United States Senate and House of Representatives, Members of the Cabinet, diplomats from foreign countries, the leading clergymen of the capital, the foremost social workers, representatives of the most exclusive circles of the city, and the highest officers of the Army and Navy stationed in Washington. The success of this performance, was a triumph for Mr. Bennett and for "Damaged Goods," and since that time, it has been produced for the general public and with remarkable success.

The Empress.

That colossal film masterpiece, "Vanity Fair" with Mrs. Fiske in the role of Becky Sharp, comes to the Empress theater today. This is an Edison production and easily the greatest ever executed by that well known maker of good pictures. Also, it is conspicuous as the first Edison offering on the newly organized Kleine-Edison Feature Service program.

Needless to say a production of sufficient size to warrant the engagement of Mrs. Fiske is no ordinary film venture. More than four hundred people were employed in many of the big scenes, notably the one which portrays Lady Richardson's ball in Brussels. This scene is in itself elaborate enough to stamp "Vanity Fair" an extraordinary production. The antique curio shops of Manhattan were ransacked for hangings and furniture of the period and the entire mammoth floor of the Edison studio was utilized.

In filming the great classic, the Edison producer made no effort to follow the devious plot of Thackeray's novel. The bare outline with the principal characters of the drama are enough to charge seven reels of film with snap and action. It is one of the genuine film masterpieces of the last two years and will undoubtedly prove immensely popular.

The Gem.

Four single reels are on today's program, all of them interesting. One of the most entertaining is "The Siren" a Vitagraph with Margaret Gibson and Alfred Vosburgh featured. A story of this picture is given.

Muriel, a little country girl, is in love with Lloyd, a dashing young city chap. He visits a fashionable cafe dansante and she followed him. He discovers her there and in a fatherly manner, leads her right home again. Realizing that he thinks her a mere child, Muriel decides to adopt modern Siren methods. She dolls up in a most outlandish costume and goes back to the cafe where she tries to look blase like the other women. Lloyd is not there as she expected, but she is not alone long. One of the habitues attempts to engage her in conversation, and an unpleasant scene is only avoided by the timely arrival of Lloyd, who promptly squelches the fellow. On their way home, Lloyd awakens to the fact that he is in love with Muriel, proposes and is accepted.

The Majestic.

"The Return of Gentleman Joe," a two part Essanay with Nell Craig featured and Charlie Chaplin in "Work," a two part comedy make up today's program.

Chaplin, as the helper of a house decorator, performs some "stunts" that, while greatly exaggerated, every house-wife recognizes as belonging to cleaning and decorating time. The inconveniences of the season also appeals to the risibilities of all men who have had to wait for their breakfasts while their wives are busy with othe work.

There is not a child in the universe who is not carried away with Chaplin's antics. This, of course, is the real point that appeals to all, for Chaplin has an originality of movements that stamps him as a genius. There have been many imitators, but none can attain the originality and spontaneity which stamps Charlos Chaplin as unique among all comedians.

The Lydia Margaret.

Olga Petrova is featured toda; in a Metro feature, "The Heart of a Painted Woman." This picture tells a story in allegorical form.

Selma, daughter of poor parents, leaves her home in Pennsylvania to go to New York and take up her career as a singer. Unsuccessful, she abandons singing and secures a position as model in the studio of a rich artist. After a few sittings, model and master become infatuated and before the first painting is finished, Selma succumbs to his wiles.

Later, Selma is abandoned and the artist becomes the husband of a prominent heiress. Desperate and discouraged, Selma sinks lower and lower in the human scale and at an entertainment, she meets Young Spendthrift. Enthusiastic over Selma's rare beauty, her latest admirer suggests a game of cards, the stakes to be Selma herself. Disgusted at the affair, Selma flees—but is followed by Young Spendthrift, the winner. Spendthrift offers Selma large sums of money—but to no avail. Selma lectures Spendthrift and tells him that if she had his opportunities in life, she would have accomplished things, instead of being the sort of woman she was.

Struck with an inspiration, Spendthrift decides to give her a chance, and presents her with one hundred thousand dollars. Later, Wealth covets the fortune of Spendthrift and uses the artist to bring about his ruin. By means of underhand methods, Wealth gains his end. Spendthrift is ruined. Selma, in the meantime has devoted her money and time to creating a hospital for the care of abandoned children. Visiting among the poor families takes much of her time.

Spendthrift learning that the artist was responsible for his downfall, as well as Selma's, plots revenge and with this end in view invites all his friends to see hi mbury his past life.

NEGRO MAKES CLEAN UP AFTER KILLING HIS WIFE

Special to The Times.

Waco, Texas, Nov. 12—Last June, Carrie Weaver, wife of W. T. Weaver, a negro, was found dead in bed and circumstances strongly pointed to her husband as her slayer. Weaver testified that she had been killed by three white men who rushed into his home, but Ike Metcalfe, another negro, told the officer sthat he saw Weaver fire the shots which the mysterious white men were said to have fired. Weaver was released on bond. Yesterday Weaver went to Metcalfe's store in this city, shot Metcalfe then rushed into some bushes nearby and drank carbolic acid, dying in a short time. Metcalfe's wound soon proved fatal.

IS ASSAULTED BY MAN IN EVIDENT ATTEMPT TO ROB

W. E. Clark is Attacked Thursday Night But Successfully Defends Himself

Walter E. Clark, proprietor of the Schlitz Bar, was assaulted Thursday night on Lamar street at the court house as he was going to his home after the close of business. Mr. Clark reported that when he crossed the street to the court house side at the Methodist Church he saw a man walking ahead of him slowly. Something in the way the man acted aroused Mr. Clark's suspicions but he could not avoid passing the man. As he did so, Mr. Clark says, the man struck him in the face with what he believes was a sand bag.

Mr. Clark was knocked to his knees and was almost blinded by the blow but arose with his knife in his hand. His assailant's knife had dropped. Mr. Clark picked this up. Mr. Clark followed the man north on Lamar avenue but he finally disappeared. The incident was reported to the officers and later in the night an arrest was made. A complaint charging an attempt to rob has been filed against this man.

Aspiration.

Yonder a sail flies to the burning moon,
And here a silver moth, with frightened grace,
Circles my lamp, and there upon the dune
A lover looks into his lady's face.

I, too, have wings that struggle into flight,
Blind as the white moth at the lantern's bars;
I, too, drawn by that yearning for the light,
Have sent my soul to beat against the stars!

The mariner will never touch the moon,
The moth will die; and love against love's eyes
Will search in vain for some perennial June,
As I will search in vain for Paradise.

And yet when sails are furled, like wings at even,
And love lies dead upon the sands it trod,
The old desires shall light us into heav'n,
Old failures shine upon the face of God.

—Dana Burnet.

Always fry with Cottolene

Whatever you fry with Cottolene is delicious and digestible. The true flavor of chicken, fish, potatoes, or any other fried foods is enhanced.

Cottolene has done much to do away with the old prejudice against fried foods. As it does not soak into the food, it performs fully the real function of a frying agent—it *cooks* the food and adds not only to its flavor but to its wholesomeness.

Cottolene

For more than a quarter of a century Cottolene has held its own place, in a class by itself. There is no substitute for it.

Always remember to use one-third less Cottolene than you would of butter or lard.

Since Cottolene does not absorb tastes or odors, it may be used over and over again for frying. Heat it slowly.

Cottolene is packed in pails of various sizes for your convenience. Arrange with your grocer for a regular supply.

REPUBLICAN CONGRESSIONAL DISTRICT MEETING CALLED

County Chairmen to Convene in This City Tomorrow—To Consider Party Mattqers

Republican county chairmen in the Thirteenth Congressional district have been called to meet in Wichita Falls next Saturday afternoon to organize for next year's campaign. Notice of the meeting was received here in a letter to J. B. Jamison from J. L. Hickman of Gainesville. Hickman is chairman of the Republican organization for this congressional district. Mr. Jamison was asked to make hotel reservations for Mr. Hickman, Phil Baer and J. F. McGregor. McGregor is Republican committeeman for Texas. The Chamber of Commerce room has been secured for the meeting.

The Progressive movement left the Republicans practically without organization in this section of the state, some counties having even no Republican postoffice aspirants. The decadence of the Progressives is expected to result in a revival of the Republican party in the coming campaign.

One of the purposes of the meeting here Saturday is understood to be the selection of a new chairman for this congressional district.

GLOVE FACTORY BANKRUPTCY HEARING IN FEDERAL COURT

A number of Wichita Falls citizens went down to Fort Worth last night to attend a hearing in the federal court in connection with the bankruptcy proceedings of T. A. Hilburn, formerly manager of the glove factory here. When Hilburn came here Wichita Falls citizens endorsed his note for more than $8,000 to get his factory into operation. Later one individual loaned him $1500 until he collected $9,000 insurance for the loss of two fingers when his shot gun was accidentally discharged on a street car. Before the insurance money came in or before it was applied to the discharge of his indebtedness heer Hilburn filed application to be declared a bankrupt.

Among those who went down to press the claims of Wichita Falls citizens were: Judge Martin, Attorney Orville Bullington, J. A. Kemp, C. W. Snider, Frank Kell, W. M. McGregor, R. E. Huff, Howard Hines, J. W. Culbertson, N. Henderson and F. M. Gates.
